Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

Template:

Define CS, fit into CC	1. CUSTOMER SEGMENT(S) CS Novice investor seeking an accessible entry into stock market trading. Primarily individuals with high risk-aversion, limited time, and little to no previous investment experience. This segment includes a wide demographic, not limited to parents.	6. CUSTOMER CONSTRAINTS LC Limited capital availability (cannot afford real losses); limited free time to dedicate to complex research; lack of technical market knowledge. High aversion to financial risk. Need for clear and simplified explanations.	5. AVAILABLE SOLUTIONS AS Real stock trading platforms (financially risky, steep learning curve); other existing stock market simulators (often over-simplified, lack real-time data integration, or have a disconnected feel from actual market dynamics).	Explore AS, differentiate
Focus on J&P, top into BE, understand RC	2. JOBS-TO-BE-DONE / PROBLEMS J&P Primary Goal: Gain practical experience and build confidence in trading without financial risk. Specific Problems: Understanding live market movements, executing trades correctly with real-time data, and visualizing portfolio performance and diversification.	9. PROBLEM ROOT CAUSE RC Stock market entry is inherently high-risk and intimidating for beginners. Existing platforms are designed for experienced users, presenting jargon and raw data without context. No single platform provides a high-fidelity simulator combined with user-friendly visualization tools.	7. BEHAVIOOR BE Sparse monitoring of market indices, reading introductory financial advice on social media, executing uninformed virtual trades, feeling overwhelmed by market volatility, and neglecting portfolio rebalancing.	Focus on J&P, top into BE, understand RC
Identify strong TR & EM	3. TRIGGERS TR Desire for financial growth, seeing acquaintances make stock gains, reading major market news events, reading simplified investment articles, or a personal financial resolution. (Removed solar panel example) 4. EMOTIONS: BEFORE / AFTER EM EMOTIONS BEFORE: Anxious, confused, stressed, afraid of making costly mistakes, overwhelmed. EMOTIONS AFTER: Confident, knowledgeable, prepared, in control, sense of accomplishment, and ready for real investing.	10. YOUR SOLUTION SL ShopEZ Trading Platform. A risk-free, real-time virtual stock market simulator using live market data for a 'high-fidelity' practice experience. Built on the MERN stack with Vite, featuring secure user accounts (JWT auth), a Market Explorer for search and trade execution (Buy/Sell), a Dashboard with personalized portfolio table and an interactive asset allocation pie chart, and an initial \$100,000 virtual balance. Features restricted Admin Control for logging platform-wide trades.	8. CHANNELS OF BEHAVIOR CH 8.1 ONLINE Financial news websites, social media investment groups (e.g., Reddit, Twitter), stock discussion forums. 8.2 OFFLINE General discussions with friends about personal finance, viewing finance-related television content.	Extract online & offline CH of BE
