Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Novice investors have no risk-free way to practice trading and learn, leading to anxiety and potential financial losses.
2.	Idea / Solution description	Develop ShopEZ, a MERN-stack virtual trading simulator, offering risk-free trading with a virtual \$100,000 balance using live market data for practice and skill-building.
3.	Novelty / Uniqueness	High-fidelity, real-time MERN platform with responsive asset visualization (interactive Pie Chart), and unique multi-role access (Admin vs. User) for platform-wide trade logging, specifically tailored for a low learning curve for beginners.
4.	Social Impact / Customer Satisfaction	Promotes financial literacy and reduced investment anxiety. High satisfaction through clean UI, visual portfolio tracking, and a frictionless, safe learning environment.
5.	Business Model (Revenue Model)	Freemium model with basic simulation and virtual balance for free, and premium tiers for advanced analytics, multiple portfolios, or in-depth educational resources.
6.	Scalability of the Solution	Leverages scalable MERN stack and stateless API. Can scale with additional asset classes (crypto, forex), integrated educational courses, or more complex portfolio tools.
